

## CHOICE MATTERS...

Choose which battery technology is better suited to meet your business needs.

## RELIABLE POWER FROM A NAME YOU CAN TRUST.

Thermo King batteries have been extensively lab tested and field verified to meet refrigeration and auxiliary power unit operational life and performance requirements. They offer long life and reliable power to get your vehicles and assets wherever they are needed.

### WET CELL BATTERY

- 18-month product replacement warranty
- Premium plate anchor bonding for superior vibration resistance
- Lead/calcium alloy helps reduce maintenance requirements
- Reinforced ribbed case reduces case distortion
- Manifold lid vent technology for superior liquid retention

### EON BATTERY

- Full-replacement 2 to 4-year warranty
- Dry cell technology for greater efficiency and longer life
- Fuel savings due to less engine run time to recharge battery
- Improved heat and vibration resistance
- 210-minute reserve capacity
